

Felix Jaehn, Bonfire (feat. ALMA)

Words, I can hear the whisper about me
About me
Hurts, it hurts if I let all the poison in
If I let them win

When you're mad
Make it rain
You're trying to put my fire out
You feel better now?
Spill your hate
Bring your [?]
Through it right into my flames
I want you want know

I'm the bonfire
You make me stronger
You make me light up
With the shade you throw on me
Throw on me
I'm the bonfire
You make me stronger
I am going higher
I live off your gasoline, gasoline
I Am the bonfire
I live off your gasoline, gasoline

Breath, now I close my eyes
And just breath
I just breath
Hurts, but shit that doesn't killyou
Make you strong
So bring it on

When you're mad
Make it rain
You're trying to put my fire out
You feel better now?
Spill your hate
Bring your [?]
Through it right into my flames
I want you want know

I'm the bonfire
You make me stronger
You make me light up
With the shade you throw on me
Throw on me
I'm the bonfire
You make me stronger
I am going higher
I live off your gasoline, gasoline

Round your mouth around my business
So I can look like them other bitches
Let them drinks, that's my business
Fuel to the fire /2x
Run your mouth, you can RUN YOUR MOUTH
Think, you rain can put my fire out?
Spilling how you feel better now
Fuel to the fire /2x

I'm the bonfire
You make me stronger
You make me light up

With the shade you throw on me
Throw on me
I'm the bonfire
You make me stronger
I am going higher
I live off your gasoline, gasoline
