

Feltbeats, If You Could be Anywhere

One two three four

If I had a plane where would I fly to?

If I had to use my brain for something else tell me what would I do?

And if I had a strange conversation with a lady in a waiting room about leaving all this doom and gloom

If you could be anywhere where would you be?

If you could be anywhere would you be there with me?

If I could be anywhere I'd be there.

If I could be anywhere I'd be there with you girl.

If I had a clue I would know exactly what to do.

If I had a way to let you know where I wanted to go

And if I had a strange conversation with a lady in the street telling me to move my tired feet.

If you could be anywhere where would you be?

If you could be anywhere would you be there with me?

If I could be anywhere I'd be there.

If I could be anywhere I'd be there with you girl.

Take my chances

Break my glances

Wake those answers.

Anywhere but

Take my chances

Fake my glances

Wake those answers

Anywhere but here

Yeahhh

I'll do it anywhere but here

I'll do it anywhere but here.
