

# Fergie, Voodoo Doll

The devil comes and I try to stall and  
Soon my subconscious and conscious might start to brawl  
And I put up my walls  
And they begin to fall  
As this cunning demon takes me as it voodoo doll  
Darkness sets in as the horns start to grow  
Suddenly I become somebody I dont know

[Chorus]

Whoa-what do I do?  
Ooh ooh ooh oh  
This bodys temple of doom  
Whoa-what can I say?  
To-ohh-ohh oh make all of this go away  
I got many different names, but 2u its all the same  
I be the crawlin in your skin, I be the reason 4 your sin  
I be the cunning in your charm, and I be the needle in your arm  
Call me once might let you got, call me twice and then IM gonna get ya

Mind playin tricks on me  
Im paranoid, homie  
Nobody know what Im going through  
God, Im so lonely  
I know Im loosin it  
Im hearing..wispering  
Somebodys watching me, clockin me, hear my heart tickin  
Worshiping 2gods can get you in deep  
Crystal ball show you things youre not supposed to see

[Chorus]

Whoa-what do I do?  
Ooh ooh ooh oh  
This bodys temple of doom  
Whoa-what can I say?  
To-ohh-ohh oh make all of this go away  
I got many different names, but 2u its all the same  
I be the crawlin in your skin, I be the reason 4 your sin  
I be the cunning in your charm, and I be the needle in your arm  
Call me once might let you got, call me twice and then IM gonna get ya

You know Im comin for ya, u know Im gonna get ya
