

# Fern Kinney, Together We Are Beautiful

He walked into my life  
And now he's taking over  
And it's beautiful  
Yes it's beautiful

I've gone with better looking guys  
He's gone with prettier looking girls  
But now we're beautiful  
I think we're beautiful

I don't need love affairs anymore  
I don't need love affairs anymore  
Can't you see, it's the chemistry  
You really must agree together we are beautiful  
We are so beautiful

I am the rain, he is the sun  
And now we've made a rainbow  
I think it's beautiful  
It's really beautiful  
I don't need love affairs anymore  
I don't need love affairs anymore  
Can't you see, it's the chemistry  
You really must agree together we are beautiful  
We are beautiful

And if the whole world fell in love  
Just like me and my man  
This would be beautiful  
This would be so beautiful  
I don't need love affairs anymore  
No I don't need love affairs anymore  
Can't you see, oh it's the chemistry  
And together we are beautiful  
We are beautiful  
Can't you see, it's the chemistry  
You really must agree together we are beautiful  
We are beautiful  
Beautiful  
We are beautiful
