

# Fever Ray, Kandy

We've been talking, now I'm singing  
What if I die with this song inside  
I've been alone forever  
You show a new book to read out loud  
Please, come home now  
Tonight we'll go with someone else  
I trust you, no answers  
Simply wood and fire

She laid me down and whispered  
All girls want kandy  
Can you bring me back, ah  
All girls want kandy

Be still and patient  
A new sounding instrument  
We deserve rest  
Lovelier than diamonds

She laid me down and whispered  
All girls want kandy  
Can you bring me back, ah  
All girls want kandy  
After the swim she laid me down and whispered  
All girls want kandy  
Can you bring me back, ah  
All girls want kandy

Simply wood and fire  
Lovelier than diamonds  
Simply wood and fire  
Lovelier than diamonds  
Simply wood and fire  
Lovelier than diamonds
