

# FFH, It's Been A Long Time

It's been a long time since You've held me close  
It's the thing that matters most-  
The time I spend with You  
It's been a long time  
Since I've held Your hand  
I don't understand  
How I could walk away from You

All I have to do is call  
You'll come running to my side  
Then I look at You and You say  
It's gonna be alright

It's been a long time  
Since we've talked awhile  
Since I've cracked a smile  
Since I've heard Your voice  
It's been a long time  
Since I've seen the sun  
I've been on the run  
But now I have no choice

I've been running I've been hiding from You  
Now I know there's only one thing I can do, so I-  
Throw my hands up in the air and I will pray  
That You carry me away
