

FFH, Open Up The Sky

I've had my share of heartache
I've felt the sting of pain
From standing out in the desert
Praying for rain
I've seen my lonely teardrops
Fall down my lonely face
Oh how I long to hear the
Thunder roll again

And I want to be
Swept away in Thee
Only You know what I need

(Chorus)
So open up the sky
Rain down Your love
I don't care if I
Never get enough
I just want to be
Caught in that flood
So open up the sky

I've had my disappointments
I've cried a time or two
These showers of love I long for
They only come from You
Now I want to go deeper

And fall in over my head
So send Your Holy downpour
And let the healing begin

And I can't wait
To be swept away
Only You can stop the pain

(Repeat Chorus)

I just want to be
Caught in that flood
So open up the sky

(Repeat Chorus)
