

# Fickle, Best Friendz

I remember the time when we were kids even if I don't wanna come back through the years

I write this memories 'cause we've never talked about it

I'd like you to listen sure to be sincere, it's good to be here together again [together again]

To all my best friends, the ones I will always count on, you'll stay through the trends  
You'll always comprehend what goes wrong

I've spent so good years in my life, shared so many days fuckin' around

In that neighbourhood this was our town, the world could have felt down, we didn't care

I write this melody 'cause we've never talked about it

Today we're not driving in the same cars but we're still drinking in the same bars [in the same bars]

To all my best friends, the ones I will always count on, you'll stay through the trends  
You'll always comprehend what goes wrong

Forever best friends, different ways but the same feelings, our friendship'll live until the end  
To overcome our future hurtings

Forever best friends, different ways but the same feelings, our friendship'll live until the end  
To overcome our future hurtings  
To overcome our future hurtings

To all my best friends,  
To all my best friends,  
You'll always comprehend what goes wrong

To all my best friends,  
To all my best friends,  
To all my best friends,  
To all my best friends,  
You're all my best friends,  
To all my best friends,

(Merci ntOale pour cetttes paroles)
