

# Fiddler's Green, Celebrate

I just hang around raising hell and rotten memories  
I can almost see your smile again  
People stare at me I don't care don't want no pity  
Gonna celebrate don't give a fuck

Celebrate celebrate  
Cos I'm almost free tonight  
Celebrate and jubilate  
Cos I'm almost free tonight

Celebrate  
Celebrate  
Celebrate

I've been around the world  
Searching for the perfect kiss  
But my lips are seal I only drink  
Now I'm back again back again  
Where I once started  
I can almost feel the western breeze

Celebrate...

It's been a long time since you left me  
Leaving on a downtown train  
Such a long long time since you left me  
Leaving on a downtown train  
Such a long long time

So celebrate...
