

# Fiddler's Green, Fall For U

I'm a white guy telling white lies  
Cheating myself with wrong advice  
You are my way to get me out  
Out of this dark embrace  
This is the day my mind goes dry  
This is the day I'm gonna die  
This is the day my number's up  
I'm on the hitlist now

Where do you go  
I'd rather be with you in this world  
Where do you go  
I'd rather be with you

I'm falling for you  
You really got me started  
I'm on a fast lane

You gave me love I gave you hell  
You wanted to know but I won't tell  
You fell in love and I fell apart  
Looking for faith in you

Don't leave me out there in the cold  
Don't leave me out there
