

# Fiddler's Green, Fiddler's Green

In my green heaven there's a place  
Shinin' like a lover's face  
Where no one does you any harm  
But keep the baby safe and warm

It's not my crazy fantasy  
But part of my reality

It's not my crazy fantasy  
But part of my reality

And if I could have my way  
This night will never be a day  
Tonight we go to Fiddler's Green  
The fairest place I've ever seen

We wet our whistles all night long  
And sing this crazy rotten song  
On cloud nine we have a ball  
Tonight we're gonna have it all

And if I could have my way  
This night will never be a day  
Tonight we go to Fiddler's Green  
The fairest place I've ever seen
