Fiddler's Green, Fiddler's Green

In my green heaven there's a place Shinin' like a lover's face Where no one does you any harm But keep the baby safe and warm

It's not my crazy fantasy But part of my reality

It's not my crazy fantasy But part of my reality

And if I could have my way This night will never be a day Tonight we go to Fiddler's Green The fairest place I've ever seen

We wet our whistles all night long And sing this crazy rotten song On cloud nine we have a ball Tonight we're gonna have it all

And if I could have my way This night will never be a day Tonight we go to Fiddler's Green The fairest place I've ever seen
