

# Fifteen, Greed

They They say, You should want to be richer than everyone  
They they say,you should want to have more than everyone  
They they say,you should want to be better than  
everyone

They they say,you're never good enough anyway

Better get down on your knees boy

Better pray to our god his name is greed

They they say,you should want power over everyone

They they say,you should want to control everyone

They they say,you should want to be better than  
everyone

They they say,you're never good enough anyway

Better get down on your knees boy

Better pray to our god his name is greed

I get on my knees and i thank god today,for not making me a rich man

I get on my knees and i thank god today,for not making me a politician

I get on my knees and i thank god today,cuz i'm the envy of no one  
worker amongst workers, man amongst men.
