

Fifth Avenue, Let It Be

Verse 1:

All night I've wanted you, you've caught my
Stare and now
I'm in control
And now you come to me, you talk to me
With that sensual tone

Bridge:

But when you smile at me, I can't resist I
Want a little more
Touch me, tenderly
I've never felt like this before

Chorus:

I need your love, just give it up
Why don't you come to me baby
It's you I need, my fantasy
Then we can
Let it be

Verse 2:

So now you've caught me, I'm twisted in your
Web of this intimate night
Can you feel my need surrounding you, it's
Drowning you and you are also mine

Bridge:

Press your lips to mine
I wanna taste, how good you look to me
Don't waste any time, at home alone is
Where we should be

Chorus:

I need your love, just give it up
Why don't you come to me baby
It's you I need, my fantasy
Then we can
Let it be

Middle 8:

Baby tell me what you want, I can give you
What you need
One night with me I'll make sure that your
Dreams come through yeah
The body language that we speak, when we
Touch I feel the heat
You'll see
I'm here tonight

Chorus(x3)

I need your love, just give it up
Why don't you come to me baby
It's you I need, my fantasy
Then we can
Let it be
