Fight, Reality, A New Beginning

[Halford]

This time when I'm leaving Who cares where I'll go I'll walk with the sunset Out there no one knows

Reality, a new beginning

In my imagination I'm searching for my dream Finding something better More than what I've been

Reality, a new beginning

Reality, a new beginning

New day, new tomorrow I'm not living in the past I'm changing the illusion I'm set free, free at last

Reality, a new beginning
