

# Fightstar, Colours Bleed To Red

Desperate and armed, it's time to settle up  
Let's all go jump the bridge, let's all go jump the bridge!  
We'll move together and push it to the end  
Let's spread this across the earth, let's spread this across the earth!  
I will torch the earth  
And the dust will hide my eyes  
I look up at the stars and wonder where on Earth you are  
It fits just like you said, when the colours bleed to red, it's on  
Call emergency, we'll set them up to fall  
Let's all go jump the bridge, let's all go jump the bridge!  
We'll fight together and push it to the end  
Let's spread this across the earth, let's spread this across the earth!  
I will torch the earth  
And the dust will hide my eyes  
I look up at the stars and wonder where on Earth you are  
It fits just like you said, when the colours bleed to red, it's on  
I am sick of war mongering  
Spin artists only interested in the bottom line  
I'm sick of fluoride in my water  
False flags, staged terror!  
And the infinite stupidity of modern man  
It's time we face up to the truth,  
That if we refuse to study history,  
Then we are bound to repeat the past  
Arrrgggggghhhhhh
