

# Fightstar, Sleep Well Tonight

Sleep well tonight,  
I'll wake you t the first sign of light,  
If you make sure you sleep well tonight.

Take care, stay with us,  
All you've seen has gone,  
If you dream the truth will all come clear.

Put me up just to make a stand.

If you could take a lifetime away,  
And make me come back down,  
If you could take the hours then,  
Maybe we could fall apart,  
I could stay the same.

Sleep well tonight,  
I'll wake you t the first sign of light,  
If you make sure you sleep well tonight.

We fell like everyone else has,  
Our mark,  
Will show where we were for our last time.

We'll carve the mark to remember this.

If we could take a lifetime away,  
And make us come back down,  
If you could take the hours then,  
Maybe we could fall apart,  
I could stay here.

Sleep well tonight,  
Sleep well tonight.

If we could take away the summit,  
We could climb the highest we've ever been to,  
If you could take away the summit.
