

Fightstar, War Machine

War Machine

Some of us will die alone.

Some of us will never reach the end of the road.

It isn't enough.

Some of us will never know the meaning of trust.

Some of us will feed off all the people who give.

It's never enough.

Are we a race of animals who beg,

Steal and chew on the bones that are left from the people who cared?

We'll beg the kids forget your lessons, raise up your guard, protect your honour.

(Vote, fear, lies, feed, pray, debt, fear, pray.)

I'm not a war machine, I'm not a war machine,

I'm not a war machine, and now you'll never have to know.

I'm not a war machine, I'm not a war machine, and now you'll never know.

I'm not a war machine, I'm not a war machine,

I'm not a war machine, and now you'll never have to know.

I'm not a war machine, I'm not a war machine, and now you'll never know.

Some of us will hold beliefs to live, love and trust all the people we meet.

You are the social elite

(You are the social elite!)

Some of us will die alone.

Some of us will never know the meaning of love.

Well is it enough?

We'll beg the kids forget your lessons, raise up your guard, protect your honour.

(Feed, pray, dress, lies, pray, vote lies, it's all fucking lies)

I'm not a war machine, I'm not a war machine,

I'm not a war machine, and now you'll never have to know.

I'm not a war machine, I'm not a war machine, and now you'll never know.

I'm not a war machine, I'm not a war machine,

I'm not a war machine, and now you'll never have to know.

I'm not a war machine, I'm not a war machine, and now you'll never know.

I am a war machine, I am a war machine,

I am a war machine and now you'll never have to know.

I am a war machine, I am a war machine,

I'm not a war machine, I'm not a war machine,

I'm not a war machine and now you'll never have to know.

I'm not a war machine, I'm not a war machine, and now you'll never know.
