

# Fightstar, You & I

You and I  
Will never make it out of here  
Alive

Please just let us go insane  
We're travelling with spiders legs  
With our heads above the waves  
The water broke our fall

You and I  
Will never make it out of here  
Alive

You and I  
Will never make it out of here  
Alive

I can't carry on for long  
I start to feel the pain again  
Now the days all look the same  
I'm losing sight and hold of home

You and I  
Will never make it out of here  
Alive

Cause there will come  
A day when you'll silence  
The crowds

And you and I  
Will never make it out of here  
Alive

It feels as black as the thoughts I had  
When the road was as dark as my fears  
just take comfort in knowing that  
All of this ends when I am done

Please just let us go insane  
There's nothing to declare but us

You and I  
Will never make it out of here  
Alive

Cause there will come  
A day when you silence  
The crowds

Because you and I  
Will never make it out of here  
Alive
