

# Figurines, All Night

I planned to tag along and then I'll waste all our money  
I danced like a blurry phantom all night  
Forever wasting time  
Watch your back in this terrain  
Screw up in the final chapter all night  
All night all night all night

Four stools in a crowded room  
There will be only one way  
Lean back and you'll make it someday all night  
Forever wasting time  
Keep it down in this terrain  
Dead eyes when you're greeting someone all night  
All night all night all night

Slow down in a crowded room  
I'm not going to hurry  
Proceed to the final chapter all night  
Forever wasting time  
Watch your back in this terrain  
I laughed and swore to keep it all night  
All night all night all night  
All night all night all night all night all night
