

Film School, Dear Me

If I hold out
If I hold out
Will I make out like you?

If we hideout
If we hide here too
Will it take us back to me and you
Days and nights inside this room

Oh never-ending thoughts of you
Time can make it seem alright
Why can't I get you out of view
I follow you now, I follow you

Make it all up, take it all down
If it serves me I do
We can hideout, we can hide here too
It won't take us back to me and you
Days and nights inside your room

Oh never-ending thoughts of you
Time can make it seem alright
Why can't I get you out of view
I follow you now, I follow you

Oh never any thoughts of you
Time can make it seem alright
Why can't I get you out of view
I follow you now, I follow you

Days and nights inside

Oh never any thoughts of you
Time can make it seem alright
Why can't I get you out of view
I follow you now, I follow you
