

# Film School, Go Down Together

You still do to me something  
You still take from me something

We can run there together  
We can go down together  
We can run there together  
We can go down together

On the phone to make it right  
I'm still looking for a sign  
Could we leave this all behind?

On the phone to make it right  
I'm still looking for a sign  
Could we leave this all behind?

We can run there together  
We can go down together  
We can run there together  
We can go down together  
If we run there together, will we go down together?  
If we run there together, will we go down together?

We can run there together  
We can go down together  
We can run there together  
We can go down together  
If we run there together, will we go down together?  
If we run there together, will we go down together?
