

# Filter, I Will Lead You

Come along take a ride 'cross the sky for an hour  
Leave your mind take your soul fill the hole with flowers  
From the lake through the trees in the streets for the powder  
In the creed for the freeze I gotta place this power

'Cuz I am a lie  
'Cuz I am a lie  
'Cuz I am a lie  
'Cuz I am a lie

[Chorus:]  
I will lead you for awhile  
Take your place to place  
Bring you to this pyre  
See you face to face

Come along to this flick take your sympathy with your symphony  
See this dish a wonderful wish it's the perfect kiss it's the real thing  
See the pitch it's the greatest of hits it's the missing with the wishing  
At least you caught a smile when you coughed awhile when you did this kissing

'Cuz I am a lie  
'Cuz I am a lie  
'Cuz I am a lie  
'Cuz I am a lie

[Chorus]

I will lead you  
I will lead you

See you face to face  
Face to face  
See you face to face  
Face to face  
Yeah  
See you face to face  
Face to face  
I see you face to face  
Yeah
