

Finechina, For All Centuries

We had a party in the summer, there gathered family, friends and others.
Warm nights were made for such as these, lets go out walking in the trees.
I want to take you there, back to the place that we adore.
I want to take you there, back to the place that we adore.
Cant you see, well be in love for all centuries, cant you see?
We had a party in the summer, there gathered family, friends and others.
All holding hands we walk in line, out to the party on the brine.
I knew that youd be there, I knew that things would just get better.
Listen to children sing, a song that will last forever.
