

Finger Eleven, Tip

Duh, dah, dah, hah, ha

I gave it all, I gave it up then
I took it in and got enough, but
I try to cancel out
Whatever I can't laugh about

So what does it say?
There can't be anyway
I've done my worst and no one knows

One more day to fool them all
One more day to drop the ball
One more day to fade away, hey

Dah, hah, huh, no, huh

Fill a head with sand just to make it better
I had the chance to beat it in, but I never
I should have taken it right then

One more day to fool them all
One more day to drop the ball
One more day to fade away, hey

Now you've been taken
You won't stop shaking
Embrace every minute
You're all that's left in it

It's not happening
No, some other day you'll fool them all
One more day to drop the ball
One more day to fade away, hey

Away, hey

Duh, dah, heh, now, ha, huh
Duh, dah, dah, now, huh,
Fah,
Duh, huh, buh
