

Finger Eleven, Turns Me Back (Demo)

I need more than me
Keep you wanting faithfully
Faith my best sad face
Turns so slowly into place

And in all ways
Turns Me Back

More than forcing through
Shows my best side split in two
We are want was there
In the state of Nows been tear

But in all ways
Turns Me Back

And it all ways
Turns Me

Cant forget it
While where wait
We will see For all thats been brained
See the day We will be
Always watching We turn away

Turn away

You can call me fine
You punch your rights I need mine
We will feel no pain
We come up from down again

And we all ways
Turning Back

And all ways

Turn Me Back
