## Fingertight, Magical

For you

And any minute we'll be sitting at the bar And for a instant we'll forget who we are And it happened And when it does its magical And it happened And when it does its mystical

Cuz' im not afraid any-more Cuz I can feel you next to me Im not afraid any-more

And any time when innocence should be my right Im in a battle between alcohol and my life And I still feel like you're here with me And its magical

(Chorus)
