

# Fink, Pilgrim

Come a long way, come a long way  
Come a long way  
Not to work it out  
As cold comfort  
wraps around you in the dark  
Come a long way

Come a long way  
Not to ask the question that's been on your lips all the way  
Spit it out  
The words come out  
It's already  
Not as heavy as before  
Come a long way  
Come a long way  
Come a long way

Come a long way  
Just to say  
Doesn't matter when it mattered yesterday  
And tomorrow ain't too far  
Come a long way  
From small beginnings  
Come a long way

From small beginnings  
Come big endings
