## Fink, Pilgrim

Come a long way, come a long way Come a long way Not to work it out As cold comfort wraps around you in the dark Come a long way

Come a long way
Not to ask the question that's been on your lips all the way
Spit it out
The words come out
It's already
Not as heavy as before
Come a long way
Come a long way
Come a long way

Come a long way
Just to say
Doesn't matter when it mattered yesterday
And tomorrow ain't too far
Come a long way
From small beginnings
Come a long way

From small beginnings Come big endings
