## Fiona Apple, The Way Things Are

I wouldn't know what to do with another chance If you gave it to me I couldn't take the embrace of a real romance It's race right through me I'm much better off the way things are Much much better if, better by far, by far I wouldn't know what to say to a gentle voice It'd roll right past me And if you chalk it up you'll see I don't really have a choice So don't even ask me I'm much better off, the way things are Much much better off, better by far So keep on calling me names, keep on, keep on And I'll keep kicking the crap till it's gone If you keep on killing, you could get me to settle And as soon as I settle, I bet I'll be Able to move on How can I fight, when we're on the same side How can I fight beside you So keep on calling me names, keep on, keep on Ans I'll keep on kicking the crap will it's gone If you keep on killing, you could get me to settle And as soon as I settle, I bet I'll be Able to move on So keep on callng me names, keep on, keep on And I'll keep kicking the crap till it's gone If you keep on killing, you could get me to settle And as soon as I settle, I bet I'll be

Able to move on
