

Fire Engine Red, Christ Is Calling

Well my car won't start and my heart don't work
my brain don't work and I can't stand the pain.
Christ is calling, so just admit that you have fallen
He's called you out of the world He's given swine fine pearls,
Christ is calling
You want to do it yourself, put God on the shelf, gonna work real hard, you
think God will be so proud, but Christ is calling,
so give it up and give it all to him.
Satan will lead you astray, and pride will get in the way
but Christ is calling

Come on - No!

so just admit that you have fallen, so just admit that you have fallen,
Christ is calling
He's called you out of the world so come on and make him Lord,
Christ is calling
solo
If your car won't start and my heart won't work
your life's a mess all you feel is emptiness
Christ is calling, so just admit that you have fallen
Short of the Glory of God, so get washed in the blood
Christ is calling

Come on -Yes...No

so just admit that you have fallen,
so give it up and give it all to him.
Satan will lead you astray, and pride will get in the way
but Christ is calling Christ is calling
-Yes... Yes

so just admit that you have fallen,
Christ is calling
He's called you out of the world Come on and make him Lord,
Christ is calling
one two three!
