

Fireflight, Attitude

I hear the tone in your voice
You see that look in my eyes
I think your missing the point
You think Ive lost my mind

I dont care who started this,
I dont care who started this.

Drop the attitude
You dont have to win
Its not me against you
We can start again
Drop the attitude
We dont have to fight
We can make it through
Love can make it right

I think that we should just stop
I think that we need to rewind
Forgive and live like we forgot
We ever drew this line

I don care who started this,
I dont care who started this

I love you
I just do not understand
Why we do
What we do
