

Firehose, Chemical Wire

I'm the paint on the road
the weight of your load
with the cracked glass ground
f**k it!
an itch in your brain
in the drain shootin' rain
I'm the flame from the train
I've been smeltin' rail
flood from the fire
a hot tub cool
mire
ticket to fly her? NO
then blaze chemical wire
blazin' chemical wire
burn the church from the spire
you f**kin' pay for desire
fire turns your wire
this torch is for hire
turn an ice man a cryer
make your bed a big briar
thorns of chemical wire
you'll be the tread on the tire
sulphur in a deep fryer
grinding on till you're tired
when you'll break down beside her
