

Fireside, Love Car

You said it was OK
I guess I should be glad for you
But this is just a coop, and I'm not even there
I know why you hurt me
It's all because of pity
But I'll pick up the pieces of my heart you cut in
parts

This gotta be the real last ditch
Just give me some time
This gotta be the real last hell, but it may take a while

My life is like a cave-in, and it's getting darker now
If I gotta live, I won't settle for that
I'm gonna find a way
Even if it takes some time
And maybe on the way, I might find something good
Tell me that this is the last ditch
