

# Fireside, Monsoon

You fell asleep  
Just to make me feel bad  
Denied me your body  
And made me feel dead

Since it went wrong  
It has never been the same  
But everything changes  
Its all just a game

Though they say that in time  
Everything will go right

Too far away  
And times not on my side  
I tried to call you  
Still knowing youre out  
I cant wait  
Until i hear your voice again

Though they say that in time  
Everything will go right  
Its hopelessly black  
Its coming back

Dont you know  
Its with you that i feel the best  
The pains still in my chest  
It never rests

Though they say that in time  
Everything will go right  
Its hopelessly black  
Its coming back
