

# Fireside, Thing on a Spring

Oh, if you say that you are over me  
Then i guess im over you  
And if youve found out why it hurts so bad  
Then let me find out too  
I never leared about the endings  
Nobody told me of the truth  
No one will last me for a lifetime  
No one will ever be like you

And you can tell me stories  
Of beauty and of glow  
Ill find out when youre lying  
But not ever when i am dying

Please, dont be a stranger to this body  
Tell it about that sweet embrace  
Give it the pleasure to be wanted  
Give it whatever love it takes  
What if i miss your eyes  
What can you give me in return  
What can a song like this be doing  
What if you hear it and then you turn

Away from all these stories  
Of beauty and of glow  
You will find out when im lying  
But not ever when im crying
