

Firewind, Tyranny

We was sent to this world
Now we see all the action
The men in hate's lair
Commanding all
His statement to share

Nation free
We're fighting for democracy
Salvation, all we deserve
We don't need tyranny
Let's walk through our land of Eden

We were tortured and enslaved
For their cruel satisfaction
A bird flying in the air
Killing us, our children not spared

Nation free
We're fighting for democracy
Salvation, all we deserve
We don't need tyranny
Let's walk through our land of Eden

-Solo-

Nation free
We're fighting for democracy
Salvation, all we deserve
We don't need tyranny
Let's walk through our land of Eden

Nation free
We're fighting for democracy
Salvation, all we deserve
We don't need tyranny
Let's walk through our land of Eden
