

# Fishbone, Everyday Sunshine

I wish everyday the sun would shine  
Take me to another place in my mind  
Where everything is beautiful  
And no wants or needs  
Nor sign of greed  
Could rule our soul

How I wish everyday sunshine  
How I wish everyday sunshine

If we could fly away on wings  
To a place where all could be true  
And the skies were blue  
And love was true  
And me and you

How I wish everyday sunshine  
How I wish everyday sunshine

I wish everyday the sun would shine  
Take me to another place in my mind  
Where everything is beautiful  
And no wants or needs  
Nor sign of greed  
Could rule our soul

How I wish everyday sunshine
