

# Five, Coming Back For More

Chorus:

If you're coming back for more  
Then get ready, get ready  
Cos everything I've got is yours  
So get ready, get ready

Ya know you never had it so good baby  
So you're coming back for more  
I can always drive your body crazy  
Cos it's you that I adore  
I don't wanna love just anybody  
I just wanna make you mine  
All I need is just a little baby  
All I need is a little time

If you really want it in your face  
Then we better make it clear  
Take a good look around you baby  
There's five boys standing here

Is there really time to talk about it  
Cos darlin' we're a pair  
It's now or never if you want it baby  
Come take it if you dare

(Chorus)

Is there anytime I talk about it  
Cos talkin' that's no good  
Just a little bit a lovin' baby  
I'd take it if I could  
Just come a little closer baby  
I wanna sink you deep  
You better call your mother baby  
Cos we won't get no sleep  
Oh no

(Chorus)

1,2,3,4,5,6,7, no eight concentrate  
While I hit you off straight  
Open up your mind get you hungry make you wait  
Baby boo what I gotta do is get it on with you  
Cos the sky's the limit anything we wanna do  
Can we kick back now tell me baby can I lay ya  
Up on your back now it's gonna happen there's a way  
We gotta take it to the top and never stop  
I wanna cop the whole lot give me a shot

(Repeat chorus to fade)
