

# Five Finger Death Punch, Meet The Monster

[V1:]

It's not that complicated and you ain't gotta believe  
They'll put me down in a hole before I let you succeed  
I've never been complacent, I can't afford to be  
I know you think you're special but you ain't nothin'

[Pre-Chorus:]

Can you read between the lines?  
Or are you stuck in black and white?  
Hope I'm on the list of people that you hate  
It's time you met the monster that you have helped create  
Boo!

[Chorus:]

You've pushed me one too many times  
I'm sick of all of the fiction, we're gonna settle it  
You've pushed me one too many times  
I'm sick of all of the shit, I'm gonna settle it!

[V2:]

It's not that complicated and you ain't gotta believe  
They'll put me down in a hole before I let you succeed  
I've never been complacent, I can't afford to be  
I know you think you're special but you ain't nothin'

[Pre-Chorus:]

Well there's nothing you can say to me now  
And there's nothing you can do to stop me

It's hard not to be a menace to society  
When half the population is happy on their knees

[Chorus:]

You've pushed me one too many times  
I'm sick of all of the fiction, we're gonna settle it  
You've pushed me one too many times  
I'm sick of all of the shit, I'm here settle it!

[V3:]

'Cause I can't take it anymore  
I refuse to live this way  
It's not that I don't care enough, it's not that I can't see  
It's everything inside of me that won't let me be you  
It won't let me be you!

[V4:]

It's not that complicated and you ain't gotta believe  
They'll put me down in a hole before I let you succeed  
I've never been complacent, I can't afford to be  
I know you think you're special but you ain't nothin'  
No, you ain't nothin'  
And you'll never succeed  
I know you think you're special,  
but you ain't nothin'

But you ain't nothin'!
