

# Five Finger Death Punch, My Nemesis

I'm leaving behind this world  
And all the things I am (The things I am)  
I'm tearing away from it  
Because I know I can  
I'm pushing away from you  
And all the things you are (The things you are)  
Don't need the memory  
I already wear the scars

There is no yesterday (Yesterday)  
Tomorrow's far away

I (I) gave you everything  
And in return, you gave me nothing  
Show me a sign (Sign)  
Please give me anything  
I will not hide from what's inside of me  
My nemesis

I'm turning away from me  
And all the things I've known (The things I've known)  
I don't need your help no more  
I can do this on my own  
I'm taking all the blame  
Resent what I've become (What I've become)  
I regret everything and  
There's nowhere left to run

There is no yesterday (Yesterday)  
Tomorrow's far away

I (I) gave you everything  
And in return, you gave me nothing  
Show me a sign (Sign)  
Please give me anything  
I will not hide from what's inside of me  
My nemesis

I (I) gave you everything  
And in return, you gave me nothing  
Show me a sign (Sign)  
Please give me anything  
I will not hide from what's inside of me  
My nemesis
