

# Five, Lay All Your Lovin On Me

This one right here  
Is for all you freaks  
Get it on  
(C'mon)

Now I know what I like  
And I like what you got  
Get me hot  
Make me wanna come  
And hit you in the freaky spot  
And any way you wanna write it  
Get excited, don't you fight it  
Baby you know, you know, you know  
You know I wanna hit you off  
On the source to the rough  
Like we did it Friday night  
So we're feelin' like we take it off  
Now if you wanna come and get it  
Don't you fight it  
Guarantee you won't regret it  
As we kick it better place  
Check it out

High heels, black leather  
Fire even better  
Try me any weather  
I wanna give it to ya lady  
Now or never

Lay all your loving on me  
(You know I'm gonna get ya)  
Lay all your loving on me  
When the heat gets fat  
You won't find a better man  
So come on  
Lay all your loving on me

Strap with the fly high  
Let it down to the toast  
She even got leather pantyhose  
And only I know  
This the girl's nasty  
Looking at me  
You know, you know, you know  
She's got tattoos of cupids  
Got me all on  
Dangerous with the G's and the thong on  
So the next time a girl hits you with the line  
Make it up for me  
Make a move for the baseline

High heels, black leather  
Fire even better  
Try me any weather  
I wanna give it to ya lady  
Now or never...
