

FKA twigs, home with you

i am so wired for, seen it, tired it
I'd die for you on my terms
when I get my lessons learned
apples, cherries, pain
breathe in, breathe out, pain
no, no novocaine
still maintain my grace
how come?

the more you have the more that people want from you
the more you burn away the more the people earn from you
the more you pull away the more that they spend on you
I've never seen a hero like me in a sc-fi
so I wonder if your needs are even eant for me
I wonder if you think that I could ever raise for me
I wonder if you think that I could ever help you fly
never seen a hero like me in a sc-fi
but I've seen my limit if I could belong to you
Mary Magdalene would never let her loved ones down

I didn't know that you were lonely
if you'd have just told me I'd be home whit you
I didn't know that you were lonely
if you'd have just told me I'd be running down the hills to you

when I visualize
all I see I black
throw me to the floor
just a little more
get it on
cause I know I've been gone
you've been all alone
stocking at the fire for you
set the place alight
call me late at night
and I'll be running home to you

I didn't know that you were lonely
if you'd have just told me I'd be home whit you
I didn't know that you were lonely
if you'd have just told me I'd be running down the hills to you
I'd be running down the hills to you
I never told you I was lonely too
