

# Flame, Uh-Oh

(Chorus)

Uh-Oh the real truth is coming out  
Uh-Oh the real truth is coming out  
Uh-Oh the real truth is coming out  
Uh-Oh the real truth is coming out

(Verse One)

I done traveled the globe, and friendly skies I done traveled the road  
Done had family members die since October in '04  
When my album dropped asked how many albums I sold  
Cause honestly I really don't wanna know  
See what I wanna know is, what I wrote is it grabbin' a soul  
Into the truth of the fact that He rose  
I met a lot of people, I been to some places I ain't been before  
And my hunger only increases as I go  
This is my true passion, as I'm passing through this life that is giving  
Am I pleasin' to the Christ that was given, on behalf of sinners  
Just to see a holy God exalted through life that has been fully exhausted  
With His Father's business, my earthly visit before I lay in my coffin  
Before you all I call God as my witness, this is truly His business  
So on these tracks I will attack some new issues and old ones too  
So for you welcome back and I missed you  
Let's go

(Chorus)

(Verse Two)

I caught some slack from a couple of songs that I wrote  
But my intention was to offer you some of my hope  
See my intention was to offer you some of the freedom  
That I experienced that came from studying Jesus  
See I'm convinced of the following facts of "what you know affects how you live"  
So knowing that is a proven fact, affects the kind of lyrics I give to my listener  
The media's lying the T.V. is lying, and guarantee the streets ain't telling the truth  
So what you want me to do?  
But point to the Bible for more than survival  
But God's word that be speakin' to you, they God breathe its true  
To know that and hold back is blasphemy, so insult throw stones and laugh at me  
But my agenda is to pray for your soul  
And in love say the same things you should know  
So on that note I say

(Chorus)

(Verse Three)

So in conclusion I offer this album to God  
While at the same time I offer this album to y'all  
And that may mean that I go out just like Peter and Paul  
For preaching Jesus to the point where I'm socially martyred  
But my rewards and my treasures will never be stowed  
On this earth but in a place where they can never be stole  
In Heaven where I know the saints most definitely go  
Cause our inheritance is imperishable and incorruptible  
And as I wait I pray with fervency  
Cause the world and the church are in a human emergency  
See it's a war and I done stepped into it  
And I'm on the team of the rescue unit  
For the following people..  
1. Ones who caught up in false doctrine  
2. Non-believers ignoring the sin problem  
3. And new saints, so while my mic is on  
All I've got is the truth and a warning  
WARNING

(Chorus)
