

Flanders, By My Side

I care I wait
but more than else I've tried
to come out of ...?
I care I wait
in my crazy mind
Do you think you know the very way I think
Always by my side
the love is going away
but you can stop me
Always by my side
the love is going away
you gotta stop me
Every time
I'm feeling like I'm done
both sides are red sky and nice sun
I get away
in my crazy mind
Do you think you know the very way I think
Over and over
I got into you
over and over
I'm praying for you
over and over
I think what you say
over and over
I miss you
Always by my side
the love is going away
want you to stop me
