

# Flangers, Lay Down

Right up California  
Wish I could be with you know  
But I know you're so far away, far away

I try out some meditation  
Guess it's a lack of affection but  
I feel you slowly fade away fade away

I wish you could  
Lay down, lay down on me

Trying to right down a few songs  
Feel all this smoke in my lungs  
I think I'm slowly getting away getting away

The rain is falling down again  
I don't know, I hope you care  
Please tell me before, I get away

Lay down, lay down on me  
Lay down I beg fore more  
My faith is gone another day  
Even in the sun, I feel the rain  
I miss you so, I'm far away  
Tell me before, I get away  
It's in my way
