

Flatt And Scruggs, Barrow Gang Will Get You Little

I remember the times when the devil himself packed a bad seed in life for fear
Bonnie and Clyde were the talk of the land everybody talked about the Barrow gang
Oh the Barrow gang will get you little man I remember my mama would say
Do you listen and wash your hands or the Barrow gang will get you little man
[dobro]

When I went to school there was one sure way to silence the noise of the kids
The teacher would say work your fingers to the bone
Or the Barrow gang will get you if you don't
Oh the Barrow gang will get you...

[banjo]

On Sunday morning in the little white church I was talked of Bonnie and Clyde
We learned about joy and we learned about the veil
And the Barrow gang will get you if you fail
Oh the Barrow gang will get you...
Or the Barrow gang will get you little man or the Barrow gang will get you little man
