## Fleming And John, Love Songs

Sing me a song without any words I'll pretend you wrote it just for me Paint me a picture with images blurred So I can see what I want to see

I want to see you and me Happy together, singing love songs

Tell me that story again the one that has no ending And that will be the story of you and me It never ends it never begins it just keeps on going like it is And maybe that's the way that it should be

I want to see you and me Happy together, singing love songs

Get me out of here, oh, get me anyplace away from here I cannot see just what I want to see Oh, I rely on you to get me where I'm going to Anywhere with you is where I want to be

I want to see you and me Happy together, singing love songs
