

Flick, Electric Pear

wake up the first thing on your brain
adjusting to the noise
of flash pots screaming like air-o-planes
it will sweep right through your veins

come breath in the electric air
cause we are the electric pear

they are the perfect kellulight
wired and ready to go
flash pods sweeping like astr-o-planes
they're flying through your veins

come breath in the electric air
cause we are the electric pear

we're gonna be the everlasting
can't you see the electric sensation

wake up first thing on your brain
a just and para noise
they are the perfect kellulight

come breath in the electric air
cause we are the electric pear

we're gonna be the everlasting
can't you see the electric sensation

we're gonna be the everlasting
can't you see the electric sensation
