

Flick, Radio Song

maybe you should move on
cause lately things been going wrong
i can't keep shut up tight
i'm going to blow in time

this is my song for the radio
want the whole world to know
let the whole world know

maybe i shouldn't ramble on
but lately that's been going on

i can't keep shut up tight
i'm going to blow in time

this is my song for the radio
want the whole world to know
let the whole world know

this is my song for the radio
want the whole world to know
let the whole world know

it ground would brake my head would ache
if i would fall my eyes would crawl
crawl away, crawl away, crawl away

this is my song for the radio
want the whole world to know
let the whole world know

this is my song for the radio
want the whole world to know
let the whole world know

this is my, this is my
this is my
this is my song
this is my, this is my
this is my
this is my song
